Welcome Remarks
Mizuho Horioka, Lin Mei, Sahana Rao
Graduate Students, TPCB (Carson Family Auditorium)

The Biosynthesis of Lipoic Acid: A Saga of Death, Destruction, and Rebirth
Squire J. Booker, Ph.D.
The Pennsylvania State University / HHMI

Synthesis of Bicyclic Ethers by Palladium Catalyzed Oxidative Cyclization-Redox Relay-π-Allyl-Pd Cyclization Cascade
Michaelyn Lux, TPCB Student,
Tan Lab, Memorial Sloan Kettering Cancer Center

Coffee Break

Glutamate Transporters: How Fast Can They Go?
Olga Boudker, Ph.D.
Weill Cornell Medicine / HHMI

Highly Efficient Expression of Circular RNA: A Novel Platform for RNA Aptamers and Devices
Jake Litke, TPCB Student
Jaffrey Lab, Weill Cornell Medicine

Lunch

Poster Session (CRC Lower Lobby)

Snapshots of Voltage-Gated Sodium Channels
Nieng Yan, Ph.D.
Princeton University

Structural Insights into the Molecular Basis of Cystic Fibrosis
Fangyu Liu, TPCB Student
Chen Lab, The Rockefeller University

Diazo Compounds: Versatile Tools for Chemical Biology
Ronald T. Raines, Ph.D.
Massachusetts Institute of Technology

Poster Prize Awards & Closing Remarks
