

TPCB Faculty Committee Requirements

Faculty committee requirements for TPCB students are listed below. These requirements meet or exceed those of the graduate schools in which students are formally matriculated. Committee selections should be made in consultation with the Major Sponsor (thesis advisor). Appointments of non-TPCB faculty members to these required committee slots are generally not permitted and require prior approval of the TPCB Program Director. However, additional faculty appointments above and beyond these requirements do not require approval.

For annual/semiannual meetings, TPCB students should submit a brief written summary of their research progress and plans to their committees at least 2 business days before the meeting.

TPCB Deadlines

Candidacy exam: must be completed successfully by June 30 of Year 2
Annual meetings: must be completed by June 30 of Years 3 and 4
Semiannual meetings: must be completed by December 31 and June 30 of Year 5 and beyond

Any extensions must be requested in advance by formal written request to the TPCB Program Director.
