Dear Student:

Congratulations on being accepted into one of the degree or certificate programs at Weill Cornell Medicine!

Weill Cornell Medicine Student Health Services (SHS) is committed to providing accessible, compassionate, cost-effective and high-quality health care and education that meets the unique primary health care needs of students, enhances your personal growth and development and supports other University goals and objectives. Our vision is to serve as your medical home during the time you are a student and to be your primary resource for occupational health, preventive medicine and primary care.

SHS offers eligible students an array of primary care, occupational medicine and preventive health services including physical examinations, chronic disease management, treatment of acute illness, routine gynecologic care and contraceptive management, immunizations and management of infectious exposures in clinical settings. A physician is also on call by phone during off-hours for health emergencies. Our nurse administrator oversees our immunization program and compliance with state and institutional guidelines. The student mental health program is available to provide you with high quality mental health services. We treat your health information with the utmost respect for your privacy and confidentiality as required by law.

Please review these pre-registration materials as there are a number of requirements you must meet before you can attend classes, work in a lab or be around patients. We strongly encourage you to meet these requirements with your current health care provider to avoid any delay in registration and initiation of coursework.

We look forward to a healthy and productive partnership.

Sincerely,

Edgar Figueroa, MD, MPH, FAAFP
Director of Student Health
Weill Cornell Medicine
Important Information

Document Submission Deadline
(your program will advise you if a different date applies)
Summer 2022 (start on/around 7/1): 6/1/2022
Fall 2022 (starting on/after 8/22): 7/18/2022
Spring 2023 (start on/around 2/14): 1/16/2023
Other start dates: your program will provide guidance but generally no later than 30 days prior to start

Contact Information
For general questions: Send an email shs@med.cornell.edu
SHS Website: shs.weill.cornell.edu

For submission of preregistration requirements:
USPS Address: Student Health Services, 1300 York Ave Box 258, New York, NY 10065

KEEP A COPY/SCAN OF ALL DOCUMENTS SUBMITTED IN EVENT THERE IS AN ISSUE WITH THE MAIL

*** Do NOT fax or email documents ***

New Student Pre-Registration Requirements

☐ Patient Registration Form - allows us to create your chart in the campus electronic medical record (1 page)

☐ Health History – complete the medical and mental health history questionnaire (4 pages)

☐ Physical Exam – provide documentation of a physical examination by a physician, nurse practitioner or physician assistant unrelated to you performed within the 12 months prior to your start date. Documentation of a completed physical exam from an electronic medical record is acceptable or you may have the form available in this packet completed and stamped by your health care provider. This is not required for students enrolling into a certificate program. (1 page)

☐ Meningococcal Meningitis Response Form – Read the enclosed information regarding meningococcal disease and review and complete the meningococcal response form. Meningitis vaccination is not required for attendance. (1 page)

☐ Immunization Form - Have the form in this packet completed and signed/stamped by your health care provider. (3 pages + attachments)
Section 1: Measles (Rubeola), Mumps, Rubella (MMR)
- Serologic proof of immunity \textit{(preferred)} \text{ OR }
- 2 doses of MMR vaccine administered at least 28 days apart with the first dose being after your 1\textsuperscript{st} birthday \text{ OR }
- Two doses of measles, two doses of mumps and one dose of rubella

Varicella
- Serologic proof of immunity \textit{(preferred)} \text{ OR }
- 2 doses of varicella vaccine administered at least 28 days apart after your 1\textsuperscript{st} birthday
- History of disease is not sufficient documentation.

Section 2: Hepatitis B – [documentation of three doses single or combined antigen hep B vaccine OR 2 dose of adjuvant HepB-CpG] \textbf{AND} post-vaccination measurement of Hepatitis B surface antibody 1 to 2 months after the final dose.

If post-vaccination antibody is non-reactive or equivocal, a Hepatitis B surface antigen test is required. If this test is negative, you may get a 4\textsuperscript{th} dose of the vaccine and repeat a hepatitis B surface antibody one month after administration. If the repeat antibody test is positive, no further action is needed. If the repeat antibody test is negative, you will need to complete a second hepatitis B series and will be able to do so after arrival on campus if you start it before arrival.

If you have already received two complete courses of hepatitis B vaccine, provide dates of all doses of vaccine and all negative lab reports.

Section 3: Hepatitis C – lab report required with test dated within six months of program start date. If hepatitis C antibody is positive, a quantitative hepatitis C RNA test is required within six months of program start date. \textit{This is not required for Cert/MS PHS students.}

Section 4: Tetanus, diphtheria, acellular Pertussis (Tdap)
- Tdap within the last 10 years (Tdap preferred)

Section 5: Polio vaccine – date and formulation of most recent dose.

Section 6: Meningitis vaccine - date and formulation of most recent dose(s) of meningococcal vaccine if received.

Section 7: TB Screening
- Interferon Gamma Release Assays (IGRA) – Quantiferon Gold Plus preferred but T-spot is acceptable, dated within 3 months of program start date. Lab report required. Skin test (PPD) is NOT accepted.
For people with a positive IGRA:

- You must complete a TB symptom questionnaire
- If you did not complete therapy for active or latent TB you must submit report of a chest x-ray completed in the last 12 months
- If you completed therapy for active or latent TB report of x-ray completed at time of your positive test and record of latent TB infection treatment.

☐ Section 8: Additional Vaccines

- Full primary vaccination AND booster against SARS-COV-2 (COVID-19) is required for participation in on-campus academic activity and/or student housing. Please include a copy of the official vaccine documentation you received at completion of vaccination. If you believe you have a reason to request a medical or religious exemption for this vaccine, please contact Student Health Services for more information at shs@med.cornell.edu.

☐ Section 9: Attestation – clinician signature and office stamp required.

☐ Respirator Questionnaire (PA, MD, and MDPHD students only – 2 pages) – complete and return the respirator medical evaluation questionnaire. A respirator (sometimes called an N95 or “a duckbill”) is a mask that can provide protection against certain bacterial and viral illness in the patient care setting. The mask must be “fit tested” to make sure there’s a good seal but that can’t happen unless we have this questionnaire completed.

Instructions

2. Collect prior immunization records, titers, TB test and x-ray results. If these services were received outside of the U.S. documentation must be provided in English. Dates should be completed in mm/dd/yyyy format. Lab reports must include your name, date, name/location of laboratory, results and reference ranges. Screen shots or flow sheets from electronic record systems are not adequate documentation.

3. Arrange a visit with your healthcare provider. Show them these requirements. Get your Physical Exam and Immunization forms completed. You may need blood tests to measure serologic immunity as outlined above. You will need to complete your tuberculosis testing.

It is important these requirements are met as outlined in this document since requirements for health science students are much stricter than the general
4. After all requirements are satisfied, all forms signed and/or stamped, make a copy (or scan) of all materials for your records and then mail the originals to us by the appropriate deadline.

5. We will review all materials to verify compliance with our requirements. Note that if submitted documents do not meet our standards, you will be required to repeat missing requirements at SHS at your expense.

Frequently Asked Questions

What if I can’t meet the submission deadline?
You may not be able to register for coursework. Students with immunization deficiencies may be removed from academic activities and campus under New York State law.

I currently work or volunteer at a hospital. Can I use an Occupational/Employee Health Report to meet my requirements?
No. While it is useful information, it does not by itself meet our health requirements. You can request copies of lab reports and x-rays from your employee health service. You should have your healthcare provider complete our immunization form, and when possible, submit lab tests of immunity.

I had varicella (chicken pox) as a child. Do I really need a titer?
Immunity to varicella at our campus is demonstrated by positive lab test for varicella antibodies, or documentation of 2 doses of varicella vaccine administered 30 days apart, after your first birthday.

Can’t I just do all this when I get to campus?
No. Students must address requirements prior to arrival to campus. Those with significant deficiencies may have registration holds. Students not meeting immunization and meningococcal disease report requirements under NYS law within 30 days of the start of class may be prevented from registering, placed on administrative hold and/or excluded from campus.

I completed everything as instructed but I am told I still have deficiencies. What does this mean?
All submitted materials must meet our documentation standards and anything that doesn’t will not count towards meeting your requirements. In the event you are told you have a deficiency you will be provided with instructions on how to resolve your issue.

Where can I learn more about Student Health Services?
Visit http://shs.weill.cornell.edu to learn about our services, policies, and other important administrative information.

Am I required to pay a fee for Student Health Services?
All students in the MD, MDPHD, MSHS PA and PHD programs are required to pay a student health services fee and have access to all student health, mental health and counseling services. Students in an MS program or certificate program may be able to waive the health service fee under certain limited circumstances, but are still required to submit health forms and will be charged an administrative document review fee. Students who only pay an administrative document review fee are not eligible for any clinical services at Student Health Services.

Where can I learn more about the student health insurance plan?
Student Health Services does not administer the insurance plan. You will get more information about the health insurance plan, waiver process and optional dental and vision programs from your academic program. You may also visit https://studentservices.weill.cornell.edu/student-accounting/insurance-information.

What insurance program does Student Health Services participate in?
SHS does not participate in any insurance plans. All students who pay the health services fee, regardless of insurance, have access to Student Health Services. Insurance is required for prescriptions, labs and imaging tests, and any healthcare services provided outside of the student health center.

Am I required to have a yearly flu vaccine?
Flu vaccine is required for all students with patient contact. All students who have patient contact and who start school between September and March must provide documentation of receipt a flu vaccine for the current season. Documentation must include the date, and name and address of the vaccine provider. Flu vaccine is provided yearly at no cost to eligible students.

Is meningitis vaccination required?
Meningitis vaccination is not required for attendance but we are required to provide you information about meningococcal disease and the availability of vaccines. Men ACYW is not routinely available at SHS. Men B vaccine is not available at SHS.

Is vaccination against COVID required?
Full primary vaccination and booster against COVID-19 is required for all students participating in on-campus activity and/or living in student housing unless granted an accommodation for a medical or religious exemption. Individuals who are not able to obtain vaccination prior to arrival for the fall semester or whose vaccination is not recognized by New York state, will be expected to be vaccinated as soon after their arrival as possible and may be restricted from participating in on campus activity. All students participating in on-
site campus activity must observe all campus-required safety practices regardless of vaccination.

**What COVID vaccines are recognized by New York state and what does it mean to be fully vaccinated?**

At the time of this publication New York state currently recognizes the FDA approved Johnson & Johnson/Janssen, Pfizer and Moderna COVID-19 vaccines. Johnson & Johnson is a single-dose vaccine. Pfizer and Moderna each require two doses. An individual is considered fully vaccinated two weeks after receiving the final dose in the product schedule.

Students who were vaccinated outside of the United States and received a vaccine regimen that is recognized by the WHO will also be considered as meeting our vaccination requirement as long as we receive appropriate documentation.

**I am currently employed at Weill Cornell Medicine and/or New York Presbyterian Hospital or affiliated center. Do I still need to do all of this?**

Yes – Student Health Services does not have access to employee health records systems at NYPH or the affiliates. Please note that your health and immunization requirements in your role as a STUDENT may differ than your health requirements in your role as an EMPLOYEE.
Meningococcal Disease Fact Sheet

Last Reviewed: August 2018

- The Meningococcal Disease Fact Sheet is also available in Portable Document Format (PDF, 90KB)
- Meningococcal Vaccine School Requirement

What is meningococcal disease?

Meningococcal disease is caused by bacteria called Neisseria meningitidis. It can lead to serious blood infections. When the linings of the brain and spinal cord become infected, it is called meningitis. The disease strikes quickly and can have serious complications, including death.

Anyone can get meningococcal disease. Some people are at higher risk. This disease occurs more often in people who are:

- Teenagers or young adults
- Infants younger than one year of age
- Living in crowded settings, such as college dormitories or military barracks
- Traveling to areas outside of the United States, such as the "meningitis belt" in Africa
- Living with a damaged spleen or no spleen or have sickle cell disease
- Being treated with the medication Soliris® or, who have complement component deficiency (an inherited immune disorder)
- Exposed during an outbreak
- Working with meningococcal bacteria in a laboratory

What are the symptoms?

Symptoms appear suddenly – usually 3 to 4 days after a person is infected. It can take up to 10 days to develop symptoms.

Symptoms may include:

- A sudden high fever
- Headache
- Stiff neck (meningitis)
- Nausea and vomiting
- Red-purple skin rash
- Weakness and feeling very ill
- Eyes sensitive to light

How is meningococcal disease spread?

It spreads from person-to-person by coughing or coming into close or lengthy contact with someone who is sick or who carries the bacteria. Contact includes kissing, sharing drinks, or living together. Up to one in 10 people carry meningococcal bacteria in their nose or throat without getting sick.

Is there treatment?
Early diagnosis of meningococcal disease is very important. If it is caught early, meningococcal disease can be treated with antibiotics. But, sometimes the infection has caused too much damage for antibiotics to prevent death or serious long-term problems. Most people need to be cared for in a hospital due to serious, life-threatening infections.

**What are the complications?**

Ten to fifteen percent of those who get meningococcal disease die. Among survivors, as many as one in five will have permanent disabilities. Complications include:

- Hearing loss
- Brain damage
- Kidney damage
- Limb amputations

**What should I do if I or someone I love is exposed?**

If you are in close contact with a person with meningococcal disease, talk with your healthcare provider about the risk to you and your family. They can prescribe an antibiotic to prevent the disease.

**What is the best way to prevent meningococcal disease?**

The single best way to prevent this disease is to be vaccinated. Vaccines are available for people 6 weeks of age and older. Various vaccines offer protection against the five major strains of bacteria that cause meningococcal disease:

- All teenagers should receive two doses of vaccine against strains A, C, W and Y, also known as MenACWY or MCV4 vaccine. The first dose is given at 11 to 12 years of age, and the second dose (booster) at 16 years.
  - It is very important that teens receive the booster dose at age 16 years in order to protect them through the years when they are at greatest risk of meningococcal disease.
- Teens and young adults can also be vaccinated against the "B" strain, also known as MenB vaccine. Talk to your healthcare provider about whether they recommend vaccine against the "B" strain.
- Others who should receive meningococcal vaccines include:
  - Infants, children and adults with certain medical conditions
  - People exposed during an outbreak
  - Travelers to the "meningitis belt" of sub-Saharan Africa
  - Military recruits
- Please speak with your healthcare provider if you may be at increased risk.

**Who should not be vaccinated?**

Some people should not get meningococcal vaccine or they should wait.

- Tell your doctor if you have any severe allergies. Anyone who has ever had a severe allergic reaction to a previous dose of meningococcal vaccine should not get another dose of the vaccine.
- Anyone who has a severe allergy to any component in the vaccine should not get the vaccine.
- Anyone who is moderately or severely ill at the time the shot is scheduled should probably wait until they are better. People with a mild illness can usually get the vaccine.
What are the meningococcal vaccine requirements for school attendance?

- For grades 7 through 9 in school year 2018-19: one dose of MenACWY vaccine. With each new school year, this requirement will move up a grade until students in grades 7 through 11 will all be required to have one dose of MenACWY vaccine to attend school.
  - 2019-20: grades 7, 8, 9, and 10
  - 2020-21 and later years: grades 7, 8, 9, 10, and 11
- For grade 12: two doses of MenACWY vaccine
  - The second dose needs to be given on or after the 16th birthday.
  - Teens who received their first dose on or after their 16th birthday do not need another dose.

Patient Registration Form

Please print all entries. This information will be used to register you in the Weill Cornell Medicine enterprise medical record. At your first visit or contact with Student Health Services you will be required to provide additional information regarding source of payment for services (coverage) and guarantor (responsible party.) The only individuals with access to the information on this form are patient registration staff, practice administrators, your care providers and the people involved in quality improvement and oversight. Registration information is not shared with your academic program. The confidentiality of this information is protected by law.

☐ Please check here if you have ever been a patient, student, or employee at NewYork-Presbyterian Hospital-Weill Cornell Medical Center or Weill Cornell Physicians at Weill Cornell Medical College.

** Regarding Sex: Our EMR requires biological sex for patient registration, but we recognize sex/gender is not binary.

*** Regarding Race/Ethnicity/Language/Religion:
We want to make sure that all our patients get the best care possible. We would like you to tell us your racial and ethnic background as well as your preferred language so that we can review the treatment that all patients receive and make sure that everyone gets the highest quality of care. You may decline to answer if you wish.

Patient Registration Form
Medical and Mental Health History

The matriculating student must complete this form. All information disclosed on this form will be scanned into our campus-wide electronic medical record. Medical record information is confidential and will not be released outside Weill Cornell Medicine without your permission except as required by law. Please return your completed forms to Student Health Services, using our mailing address, along with any supplemental medical information that will help us provide you the best possible care.

NAME __________________________________________

Social Habits. Do you...

29. Drink alcoholic beverages? (Specify type and average number of drinks per week)   Yes  ☐  No  ☐

30. Have any religious/spiritual beliefs that may impact your healthcare? Specify   Yes  ☐  No  ☐

31. Have a special diet? (Explain)   Yes  ☐  No  ☐

32. Use tobacco?  ☐ Never Smoker  ☐ Current Smoker  ☐ Former Smoker. If Current/Former, indicate what how much much _________ how long _________ (years) Please include electronic cigarette use in this category.

33. Use smokeless tobacco?  ☐ Never Used  ☐ Current User  ☐ Former User Type: ☐ Snuff  ☐ Chew

34. Use recreational drugs?  ☐ Never Used  ☐ Current User  ☐ Former User Type: __________________________________

Sexual and Reproductive Health

35. Have you ever had a menstrual disorder or disorder of the female organs?   Yes  ☐  No  ☐  Not Applicable  ☐

36. Have you ever had any disorder of the penis, testicles, or prostate?   Yes  ☐  No  ☐  Not Applicable  ☐

37. Have you ever had a pelvic exam and cervical Pap smear? (Specify dates and findings of your most recent exam; you can have your physician send copies)   Yes  ☐  No  ☐  Not Applicable  ☐

38. Do you do a monthly breast self-exam?   Yes  ☐  No  ☐  Not Applicable  ☐

39. Do you do a monthly testicular self-exam?   Yes  ☐  No  ☐  Not Applicable  ☐

40. Are you sexually active?   Yes  ☐  No  ☐  Not Applicable  ☐

41. Do you use condoms consistently with your sexual partners?   Yes  ☐  No  ☐  Not Applicable  ☐

42. Do you use hormonal contraception?   Yes  ☐  No  ☐  Not Applicable  ☐

43. Do you use any other form of contraception? (Please specify)   Yes  ☐  No  ☐  Not Applicable  ☐

Part III: General Wellness Information

Do you regularly engage in any form of exercise   Yes  ☐  No  ☐

Do you have any major health concerns as you come to Weill Cornell   Yes  ☐  No  ☐

Is there anything else you wish to share with us that hasn’t been covered? Use blank space below.   Yes  ☐  No  ☐
Part IV: Mental Health History

1. Describe any medical or mental health problems or conditions that have required psychological or psychiatric care.

Physical Examination
MENINGITIS INFORMATION RESPONSE FORM

New York State Public Health Law requires that all college and university students enrolled for at least six (6) semester hours or the equivalent per semester, or at least four (4) semester hours per quarter, complete and return the following form to:

Weill Cornell Medicine
Student Health Services
1300 York Ave Box 258
New York, NY 10065

Check one box and sign below.

☐ I have had meningococcal meningitis immunization within the past 5 years. The vaccine record is attached.

[Note: The Advisory Committee on Immunization Practices recommends that all first-year college students up to age 21 years should have at least one dose of Meningococcal ACWY vaccine not more than 5 years before enrollment, preferably on or after their 16th birthday, and that young adults aged 16 through 23 years may choose to receive the Meningococcal B vaccine series. College and university students should discuss the Meningococcal B vaccine with a healthcare provider.]

☐ I have read, or have had explained to me the information regarding meningococcal disease. I will obtain immunization against meningococcal disease within 30 days from my private health care provider.

[Note: Routine meningococcal vaccination is not available at Weill Cornell Medicine Student Health Services but may be available from local retail pharmacies or other local healthcare providers in your insurance plan]

☐ I have read, or have had explained to me, the information regarding meningococcal disease. I understand the risks of meningococcal meningitis and the benefits of immunization at the recommended ages. I have decided that I will not obtain immunization against meningococcal meningitis at this time.

Meningitis Response
Immunization History and Tuberculosis Screening

Inability to receive a vaccine for a medical reason (i.e. vaccine allergy) requires documentation from your physician. Philosophical and religious exemptions are not available for health sciences students. For students unable to obtain titers, clinician should document vaccination dates. Record all dates in MM/DD/YYYY format and ATTACH ALL LAB AND CHEST X-RAY REPORTS.

Section 1: Immunity to Measles, Mumps, Rubella, and Varicella (attach lab reports – not flowsheets)

- Measles Titer (IgG)  Result Date: __________  Result: [ ] POS  [ ] NEG
- Mumps Titer (IgG)  Result Date: __________  Result: [ ] POS  [ ] NEG
- Rubella Titer (IgG)  Result Date: __________  Result: [ ] POS  [ ] NEG
- Varicella Titer (IgG)  Result Date: __________  Result: [ ] POS  [ ] NEG

Vaccination Dates:
MMR #1  __________  MMR#2  __________  MMR#3 (if given)  __________
Varicella #1  __________  Varicella #2  __________  Varicella #3 (if given)  __________

Section 2: Immunity to Hepatitis B – within last 6 months (attach lab reports – not flowsheets)

Documentation of completed Hep B series AND post-immunization titer is required for all students.

- Hep B #1  __________(date)  Hep B #2 __________ (date)  Hep B #3 __________(date)
- Brand if known: __________________________
- Hepatitis B Surface Antibody (IgG)  Result Date: __________  Result: [ ] POS  [ ] NEG

Proceed to section 3 if Hep B immune. If Hepatitis B surface antibody testing does not show immunity:
- Hepatitis B Surface Antigen Result Date: __________  Result: [ ] POS  [ ] NEG
- Additional Hep B doses (if initial post-immunization test AND hep B surface antigen are negative)
- Hep B #4  __________(date)  Hep B #5 __________ (date)  Hep B #6 __________(date)
- Brand if known: __________________________
- Repeat Hepatitis B Surface Antibody (IgG)  Result Date: __________  Result: [ ] POS  [ ] NEG

Section 3: Testing for Hepatitis C – within last 6 months (attach lab reports)

HCV Antibody Test  Result Date: __________  Result: [ ] POS  [ ] NEG

Section 4: Immunity to Tetanus and Pertussis

Most recent Tdap booster __________ (date within last 10 years)  Type: [ ] Adacel  [ ] Boostrix

Section 5: Immunity to Polio

Most recent polio booster __________ (date)  Type: [ ] IPV  [ ] OPV
Name ________________________  DOB ______________

Section 6: Meningococcal Vaccination
- Meningitis A, C, W, Y  Vaccination Date: ___________ Brand/Type: ______________________
Meningitis B  Vaccination Dates: ___________ ___________ ___________ Brand: ______________

Section 7: Tuberculosis Screening (attach Quantiferon Gold Plus lab report; attach chest x-ray report if done)

IGRA: Quantiferon Gold Plus (date must be within 90 days of start of program)  □ POS □ NEG □ IND

If IGRA is POSITIVE, clinician must complete the following:

Chest X-ray _____________ (date must be within 12 months of program start)  □ Normal □ Not normal

Did student complete treatment for LTBI? □ Yes □ type:_______________ (attach treatment records) □ No

Clinician: Please ask these screening questions of the patient with a positive TB test (IGRA) only

Have you traveled and/or lived overseas in the past year?  □ Yes □ No
Have you worked in a prison or homeless shelter in the past year?  □ Yes □ No
Have you had exposure to a known case of TB in the past year?  □ Yes □ No

Most recent return date: _____________

If yes, where: _____________

Have you entered a TB isolation room in the past year?  □ Yes □ No

In the past six months have you experienced any of the following for greater than three weeks?

- Excessive sweating at night  □ Yes □ No
- Excessive weight loss  □ Yes □ No
- Persistent coughing  □ Yes □ No
- Excessive Fatigue  □ Yes □ No
- Coughing up blood  □ Yes □ No
- Hoarseness  □ Yes □ No
- Persistent Fever  □ Yes □ No
- Persistent Fever  □ Yes □ No
Name ________________________ DOB ______________

**Section 8: Additional Vaccines** – provide dates of the following if available.
- Hepatitis A  
  - #1_________  #2_________  #3_________
- HPV  
  - #1_________ Type: __________  #2_________ Type: __________  #3_________ Type: __________
- Japanese Encephalitis:  
  - #1_________  #2_________  #3_________
- Rabies  
  - #1_________  #2_________  #3_________
- Typhoid  
  - Type: __________
- Yellow Fever  
  - __________

**COVID Vaccination** (primary series and booster required; attach proof of vaccination)
- Dose 1:  
  - Date: ______  Mfr:  
    - J&J
    - Pfizer
    - Moderna
    - Other __________
- Dose 2:  
  - Date: ______  Mfr:  
    - J&J
    - Pfizer
    - Moderna
    - Other __________
- Dose 3:  
  - Date: ______  Mfr:  
    - J&J
    - Pfizer
    - Moderna
    - Other __________

Add’l doses (optional)
- Dose 4  
  - Date: ______  Mfr:  
    - J&J
    - Pfizer
    - Moderna
    - Other __________
- Dose 5  
  - Date: ______  Mfr:  
    - J&J
    - Pfizer
    - Moderna
    - Other __________

I certify that I performed a physical exam on the above-named student and reviewed immunization and tuberculosis screening records. This individual is in good health and is free of contagious disease. To the best of my knowledge this individual is free from any impairment which may jeopardize the health of patients, or which may interfere with the performance of his/her duties, including the habituation or addiction to depressants, stimulants, narcotics, alcohol, or other drugs or substances which may alter the individual’s behavior. I attest that all dates, results, and immunizations listed on this form are correct and accurate.

Clinician Name and Title: ____________________________  Office Address Stamp: ____________________________

Signature: ____________________________  Date: ______________

Please remember to attach lab reports or lab result printouts from an EMR. Do not simply provide the patient with screen shots, Continuity-of-Care Records, or flowsheets. Thank you.
OSHA RESPIRATOR MEDICAL EVALUATION QUESTIONNAIRE

(only for students with patient contact: MD, MDPHD, PA)

PLEASE ANSWER THIS QUESTIONNAIRE DURING NORMAL WORKING HOURS, OR AT A TIME AND PLACE THAT IS CONVENIENT TO YOU. TO MAINTAIN YOUR CONFIDENTIALITY RETURN THIS TO YOUR SUPERVISOR IN A SEALED ENVELOPE OR DIRECTLY TO STUDENT HEALTH SERVICES (SHS)

THE FOLLOWING INFORMATION MUST BE PROVIDED BY EVERY STUDENT TRAINEE WHO HAS BEEN SELECTED TO USE ANY TYPE OF RESPIRATOR. PLEASE PRINT, OR PLEASE CIRCLE ONE OF THE ANSWERS TO THE FOLLOWING QUESTIONS:

1. Today’s date:__________________ 2. Name & Date of Birth __________________________

3. Age (to nearest year):_______ 4. Sex: _______

7. Job title: HEALTH PROFESSIONS STUDENT

8. Academic Program: ___________________________

9. A phone number where you can be reached by the health care professional who reviews this questionnaire (include the Area Code): ____________________

10. The best time to phone you at this number: ____________________

11. Circle the type of respirator you will use (you can choose more than one category): (students will usually use a.)
   a. N, R, or P disposable respirator (filter-mask, non-cartridge type only).
   b. Other type (for example, half- or full-facepiece type, powered-air purifying, supplied-air, self-contained breathing apparatus).

12. Have you worn a respirator (circle one): Yes No
   If “yes” what type(s) (circle all that apply):
   a. particulate respirator (isolation/TB mask/filter mask)
   b. full face mask
   c. self-contained breathing apparatus
   d. other (explain) __________________________

13. Do you currently smoke tobacco, or have you smoked tobacco in the last month? Yes No

14. Have you ever had any of the following conditions?
   a. Seizures (fits) Yes No
   b. Diabetes (sugar disease) Yes No
   c. Allergic reactions that interfere with your breathing Yes No
   d. Claustrophobia (fear of closed-in places) Yes No
   e. Trouble smelling odors Yes No

15. Have you ever had any of the following pulmonary or lung problems?
   a. Asbestosis Yes No
   b. Asthma Yes No
   c. Chronic bronchitis Yes No
   d. Emphysema Yes No
   e. Pneumonia Yes No
   f. Tuberculosis Yes No
   g. Silicosis Yes No
   h. Pneumothorax (collapsed lung) Yes No
   i. Lung cancer Yes No
   j. Broken ribs Yes No
   k. Any chest injuries or surgeries Yes No
   l. Any other lung problem that you've been told about Yes No

16. Do you currently have any of the following symptoms of pulmonary or lung illness?
   a. Shortness of breath Yes No
   b. Shortness of breath when walking fast on level ground or walking up a slight hill or incline Yes No
   c. Shortness of breath when walking with other people at an ordinary pace on level ground Yes No
   d. Have to stop for breath when walking at your own pace on level ground Yes No
   e. Shortness of breath when washing or dressing yourself Yes No
   f. Shortness of breath that interferes with your job Yes No
   g. Coughing that produces phlegm (thick sputum) Yes No
   h. Coughing that wakes you early in the morning Yes No
   i. Coughing that occurs mostly when you are lying down Yes No
   j. Coughing up blood in the last month Yes No
   k. Wheezing Yes No
   l. Wheezing that interferes with your job Yes No
   m. Chest pain when you breathe deeply Yes No
   n. Any other symptoms that you think may be related to lung problems Yes No

Thank you. Your responses will be reviewed by a health care professional at Student Health and a determination made for medical suitability for respirator fit testing made. You will be notified if you require additional medical evaluation. Fit testing will be conducted by staff from WCMC’s Office of Environmental Health & Safety.

---

**SHS STAFF USE ONLY**

- Medically cleared for Fit Testing of N, R, or P disposable respirator (isolation/TB/filtermask, non-cartridge type only).
- Medically cleared for other type (i.e. half or full-face piece type, powered-air purifying, SCBA).
- Is NOT permitted to use a respirator.
- Needs further medical interview in Student Health Services
- Has specific use restrictions:
