

Diversity, Inclusion, and Outreach Programs

Our Diversity is Our Strength. TPCB and the Weill Cornell and David Rockefeller graduate schools are strongly committed to promoting diversity and inclusion at all levels in science. We recognize that outstanding students come from all walks of life, regardless of racial, ethnic, cultural, or socioeconomic background; gender identity or sexual orientation; or disabilities, be they visible or invisible. The program has zero tolerance for racism and discrimination in any form, and works actively to combat unconscious bias in our admissions, recruiting, and curricular activities. We also advocate for diversity in faculty hiring at the three institutions.

Outreach activities to underserved communities represent a critical avenue to promoting diversity in STEM in the long term. TPCB strongly encourages all students and faculty to participate in outreach programs on a regular basis in order to maximize their impacts.

For more information, see: <https://chembio.triiprograms.org/about-tpcb/diversity-inclusion/>

Students with any questions, concerns, or suggestions regarding diversity, inclusion, and outreach are encouraged to contact the Program Director and may also contact the professional staff listed below directly. Information is also provided on how to request disability support services, and how to report bias, discrimination, harassment, mistreatment, or misconduct.
